OBJECTIVE

In short terms, catching a value adding career opportunity in the light of my education and career background. In long run, adding value to the company and promoting as a manager. Construction is my father's profession. I have infrastructure, superstructure, road and foundation application and consultancy experience.

I am a ground improvement and deep structure foundation expert.

I provide freelance consultancy services on many projects. I had to leave the geotechnical master's degree midway. For some reasons.

I am very hardworking and determined, I believe that I will add a lot of value to your institution. I am someone who desires to live a principled and disciplined life. I love learning and construction is indispensable for me. I believe that every problem I encounter on the construction site will give me a good experience.

EDUCATION

University	Kültür University – İstanbul – civil engineer – 10/2005 – 10/2010
High school	Kulu Anatolia High School – konya(English) I am a 3 rd year business administration student at Anadolu University, Faculty of Open Education

WORK EXPERIENCE

2010/2015 – Working	<p>ALPTAŞ CONSTRUCTION COMPANY. www.alptas.com.tr</p> <p>VERA RESIDANCE COMPANY</p> <p>ASKA FOUNDATION COMPANY https://askazemin.com.tr/</p> <p>AKYAPI CONSTRUCTION COMPANY https://www.akyapias.com.tr/</p> <p>SİLLE YAPIDENETİM COMPANY aktassmehmet@gmail.com</p> <p>TEKNODEEP ZEMİN LTD.ŞTİ https://teknodeepzemin.com.tr/</p> <p>Alptaş İnşaat was my family company. I was working as a manager there while I was studying at university. As alptas construction, we were subcontracting to many large companies. For example, the financial center in Istanbul, Hilton's hotel, the international Doco catering company in Istanbul Ataturk Airport, German High School ground improvement and building reinforcement As alptas construction company, we were doing ground improvement, bored pile micropile, shotcrete retaining wall, ground injection, building reinforcement, jetgrout anchorage works.</p> <p>VERA RESIDANCE Vera Residence was building multi-storey buildings consisting of luxury residences with pools. In my position at Vera Residans Company, I was doing concrete and steel works and general progress payments and quantity surveys. I was also coordinating 200 construction workers.</p> <p>ASKA ZEMİN COMPANY Aska foundation company was a company that did bored pile anchorage and ground support pipes works. I worked as a site manager in this company. The area of the site I worked on was 15000 square meters. I was responsible for the site's bill of quantities, progress payments, project applications, worker coordination and ground inspection.</p>
2015/2023 -working	<p>AKYAPI Akyapi İnşaat is a significant company in Turkey in terms of budget and work done, which carries out road bridge culvert, mine quarry, sea fortification, crushed stone, concrete batching plant and asphaltting works. As equipment, there are dozers, excavators, finishers, backhoe loaders, rollers, trucks, trailers and many other equipment. I worked on a 20 km route in the Black Sea region. My position in Akyapi was as general land</p>

	<p>manager. I was managing the control and management items of all the works. We built bridges and numerous culverts. Although the Black Sea geography has a mountainous and rugged terrain, I completed the project on time.</p> <p>TEKNODEEP ZEMİN LTD.ŞTİ</p> <p>Teknodeep is a company that does ground surveying and jetgrout marble processing factory works. This company has jetgrout sets and ground survey machines. I provide freelance consultancy services to this company in the context of ground improvement applications. I visit the site and monitor the production personally and provide guidance according to the soil condition. We carried out the foundation and ground improvement works of the bridges and rails on the Sivas high-speed train route. We have completed approximately 200000 mt of jet grout and 50000 mt of bored pile work</p> <p>SİLLE YAPİDENETİM</p> <p>I worked as general controller position. I checked multi-story construction stages and worked as the site manager of multi-storey construction. I made progress surveys and final measurements of multi-storey buildings ,coordinated the personnel of multi-storey buildings. As a building inspection officer, I inspected all manufacturing works of multi-storey buildings, from the foundation stage to the roof. I also controlled and observed the concrete strength values.</p>
